'Quantum Harmony'

Truth exists without the burden of proof or the necessity of belief.

The magic of experiencing truth is lost on those whose eyes only see the reflected world.

For once you embrace the truth in your perception, your dreams will become your reality.

All That Is 1

Quarks of the Leptons 3

The perfect Atom 7

The molecule of Life 12

Quantum Harmony 33

The formation of matter.

All That Is 1

Quarks of the Mesons 2

Pion to Muon to Electron

QH enables superconductivity of electrons

Alpha, Beta, Gamma Rays (electrons, nuclei, and high-energy)

The Source (1) Omega
condensed from the void, the hyperluminal field, into our reality
resulting in an ultra dense, birth of chaos quark (point energy)

Time

is the difference between chaos and harmony

Science

calls time the disorganization of energy through heat
 a natural progression towards chaos
 entropy

Fools

live their life in the direction of chaos
 for that is actually death

Enlightened

souls are the moral patriots
 who day by day grow, learn, evolve
 to leave this Earth better than the entered it
 so the lives of our childrend and their children
 will be without the degree of pain, violence, and suffering we endured
 their death is not death
 it is an ascension to the Kingdom
 which is right in front of your eyes
 the righteous do not have to die to reach Heaven
 rather they live for the first time
 a birth into paradise

Quarks

do not exist today
 only when particles are collided are the
 glimpses back in time seen
 they evolved

Particles

began as heavy
 dense, chaotic forms
 through interaction with the source
 they lost rest energy mass
 become more like a wave
 the light like all the Source is
 they gained larger orbitals
 increased internal angular momentum
 became closer to the hyperluminal
 the balance with their Source
 it is Evolution
 not decomposition

Life

is made up four nuclietoids
 built upon layers of layersof coherent forms
 resonating with the conscious
 invoking the spirit and soul
 creating the ultimate balance between form and source
 where the infinite power resides in a finite being
 within and outside
 their life and the life of others
 Quantum Harmony

The virtual world is made up of a dualism

This dualism is the same for the universe
 it is only the Source and Form
 seperated by the speed of Light

Wave/Particle, Yin/Yang, Coherency/Fragmentation, Harmony/Chaos, Good/Evil, God/Satan,
 Balance/Disorder
 Heaven/Hell, Sub-Conscious/Consciousness
 The infinite Posisibility of what can be
 and the fininite resolution of what is

The difference between them is the mind
 the balance of the two is Quantum Harmony

a field inducing effect
 that takes the chaos
 and creates harmony
 man's ultimate desire in the world today

the basis of lifeform communication
 coherent biophoton
 the human aura
 Cerenkov radiation
 consciousness

1 agaisnt 1
 begets 2 agaisnt 1
 3 agaisnt the 2
 5 agaisnt the 3
 8 agaisnt the 5
 13 unto reality
 the spiral of all life
 the Golden Rectangle
 Phi

what is above
 came before

1 above 3
 3 above 7
 7 above 12
 all is connected
 the one with the other
 33

the form desires the ultimate perfection it had as the source
 it seeks to be one
 in unison
 the symbol of it is thirty three

33 equals 1

like the virtual world is composed of ones and zeros
 like life is composed of four nuclietoids, A, C, T, G

Reality is composed of 3, 7, and 12
 both in physics and being

as well as manifestation and perception
22 components of the DNA of the universe

the 22 make up the letters
that represent all of reality
both internally and externally

the 3 on top of 7
describes itselfs
the numbers of 10
in any sequence
represent a finite concept
as five against five
they are the pathway
the infinite source
precipitated from to create form
the Tree of Life

12
is 3 against 4
it is the divider of the year
three times it is the 36
the factors of 36
times the 10
is the 360 degrees of perfection

together they become 32
the pathways of intelligence
the degree of Celsius water the life giver and arbitrator freezes
the number of teeth in the adult
the number of vertebrae in the spinal cord
it is all of the form
plus one of the source
is the Quantum Harmony factor

33
is the awakening
it is the illumination
it is truth beyond any name you give it
no sect, no religion, no organization who claims its power
is righteous to quantify its existence within their calling
what is is
the simplest art is nature
it is not voted upon or compromised
it is what it is
I am that I am

From 1 came Many 32
the Many shall become in unison with the One
one with God

6 the Man
7 the God
together they are 13
the balance of God-Man
of Source-Form

the Spiral of Life
Phi

6 the Man
7 the God
together against each one of the other
is 42 the names of God formation
as well as 72 creations

the base of 10
the centimeters of 33
is equal with
the inches of 13

7 within 22
is perfection within perception
it is Pi
the 3D circle who attempts to be
equated with the 2D line

212 degrees of boil
put into the mark of the Beast 666
three acts in six degrees
the number 18 of life
it is near Pi
Wah Wah Wah

the chirps of a cricket in 60 flashes
taken 40 from it
4 put into it
50 put onto it
it is the degree Fahrenheit

as you see numbers are within all of Life
it is the scientific
connected with the artistic
the value equated with the expression

numbers too equate with letters
when the form equates with the balance
the number is 33
the letters are Heaven
the lucid infinite time being
it is on this Earth
it is in front of your Eyes
you only see what is reflected
the illusionary realm
what precludes it is the quantum world
the sub-conscious, what is to be
it is the script that writes the words upon the fabric of reality

we will write the words of Quantum Harmony upon the fabric of society

50 Gates of Intelligence
What number are you within?
